About

Self-Taught Front-end Devoloper and User interface Designer based in Egypt Seeking for a job or training in my role.

Objective

Discover what you need and create the best solution. My properties are quality and respect of deadlines and budget. I love to share my enthusiasm and passion for design.

Technical skills

Html, Css, JavaScript, ReactJs, VueJs, Scss, NodeJs, User interface design, MS office apps.

Front-end Projects

I've used my technical skills to be able to achieve some challenges from [frontendmentor.com](#) that can be shared under the request and here are few private projects too.

Moaaz.Dev Portfolio,
Still working on it but process
perview can be shared under request
